An Information Technology graduate with a strong interest in Manual Quality Assurance and Software Testing. Experienced in executing manual testing, identifying functional and usability issues, documenting bugs, and collaborating with developers to improve software quality. Detail-oriented, analytical, and committed to ensuring reliable, user-friendly applications through structured testing and continuous improvement.

EDUCATION

Bachelor's degree Information Technology Trilogi University	Sep 2023 – Dec 2025
Associate Software Engineering CEP-CCIT Faculty of Engineering University of Indonesia	Sep 2021 - Nov 2023

EXPERIENCE

Quality Assurance (Manual) Internship PT Solusi Terbaik Daku	Jun 2023 - Dec 2023 Hybrid, Jakarta
- Executed manual testing on web applications to verify functionality, usability, and overall system quality. - Performed functional and usability testing to identify defects and improve user experience. - Identified, documented, and reported software bugs with clear reproduction steps. - Collaborated with developers to verify bug fixes before deployment. - Prepared testing documentation, including bug reports and recommendations for product improvement.	

ORGANIZATIONAL EXPERIENCE

Member Google Developer Students Club University of Indonesia	Oct 2021 - Mar 2022 Remote, Depok
- Participated in workshops and study sessions on web development (HTML, CSS, JavaScript) - Built a web-based project as part of the learning program. - Collaborated with peers to discuss and solve development challenges. - Explored UI/UX fundamentals and applied them in simple project interfaces. - Improved problem-solving and debugging skills through hands-on exercises.	

PROJECTS

Blockchain Website	Mar 2024 – Jul 2024
- Developed a responsive website using HTML, CSS, and JavaScript. - Conducted functional and usability testing across multiple devices. - Identified UI inconsistencies and verified application behavior before finalization.	
Salon Website	Dec 2023 - Feb 2024
- Developed website features using HTML, CSS, JavaScript, and Bootstrap. - Performed manual testing to verify website functionality and user interaction. - Identified interface issues and improved usability before deployment.	
The Happy Readers	Jul 2023 - Sep 2023
- Design and develop responsive and aesthetically pleasing user interfaces for Android Applications. - Create wireframes, mock-ups, and prototypes that help users understand the flow of the application. - Using Figma, Canva, Balsamic, and other tools to support the design and prototyping process.	

SKILLS
